ROLE OF THE FOSTERING SERVICE

Liberty Foster Care provides alternative foster families for looked after children, placing them with foster carers, who have been assessed and approved by Liberty. To achieve the best outcomes for children it is imperative that a very careful process of matching child's needs and carers skills, abilities and resources are carefully considered. Liberty Foster Care takes issues of child's individual physical, emotional, educational and social needs into consideration before offering to place a child with the foster carer. We also take into consideration that wherever possible siblings are placed together. We offer support to our carers to enable them to continue

to support the children to maintain contact with their family and friends.

Emergency Placements:

Emergency foster placements are needed on short notices to ensure a child's safety. Liberty Foster Care offers support to children in times of such crisis. Where ever possible, we obtain detailed information about the child's needs and circumstances so that we can offer the best possible fostering household to safely meet their needs.

Short-term fostering:

Foster carers mostly look after a child for a time limited period in order to allow children's social workers to make long term plans for them. These plans may include helping a child to return home, whilst certain care concerns are addressed or parent's personal circumstances improve. These plans may include for a child to be placed with a permanent family or be adopted. Foster carers offer invaluable support to children and young people who are experiencing transitions to their long-term future.

Long-term fostering:

Liberty offers long term placements to children and young people, who require continued stability and support until they reach age 18 years. On occasions a short-term placement may become a long-term placement due to changes in the child's care plan. We support our carers in reaching out and supporting the children's long term futures.

Staying Put:

Liberty Foster care inspires and reassures young people to remain with their foster carer beyond the age of 18 years under the 'Staying Put' policy. We do aim to provide young people with the extension of care and support from the carer, that has offered them with a nurturing relationship and stability.

We offer commitment and care to young people beyond the age of who reach age 18 by encouraging and supporting the carers to consider 'Staying Put' for young people in their care where it is considered to be in the young person's interest.

We have only recently recruited a short break foster carer. In addition, some of our foster carers are keen to undertake short break placements in order to support the children and their families.
